

In Scouting, youth grow into their best future selves, but just as importantly, they have fun doing it. Recruitment starts by showing that fun. When families see Scouts in action - building, exploring, and laughing - they want to join. The best invitation is simple: **come be part of it.**

This guide includes links to a number of ready-to-use resources to help you succeed. No need to reinvent the wheel. Updated April 2026. For questions, assistance, and suggestions, reach out to TAC's Communication Committee at TACScouting@gmail.com or your district's Membership Chair.
